

Murdock – Wedding Playlist

We estimate that for a typical evening reception running between 7:30 till midnight you will require approximately 55 songs. These songs will be played before, between and after the live band. Should the night require more songs we have plenty more in a similar genre to those chosen.

Therefore, we ask wedding couples to choose their music in advance. We have categorised for ease of selection the main type of music requested at weddings. Please select 50 songs from the lists provided below (There is music from all genres so make sure you have a good look!). In addition to your chosen 50 songs you can optionally chose another 5 requests which we can incorporate into your set – one of which will be your first dance.

Please number your selections 1-55 (including requests), these can be played in order or we will mix them up – indicate below:

- Play In Selected Order (songs including requests must be numbered in order, 1st dance will be kept to one side and we will play whenever you are ready)
- Play your selections in random order

Wedding Classics/Pop
